Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 01 December 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### DETAILED ACTION

1. Claims 1-37 were examined.

#### ***Final Rejection (3<sup>rd</sup> Office Action)***

#### ***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-37 are rejected under 35 U.S.C. 101 because the limitations reflect a software application. In summary, claim 1 denotes an exchange of software information where the code itself is upgraded when prompted.

Claims 4-16 reflect the movement of data (i.e., claim 4: "first binary information into further binary information that is executable by the information processing apparatus), between various hardware devices (e.g., claim 10: "wherein said adjusting means selects the device from which the change parameter is read..."), thus is non-tangible.

Viewing the means for language in the specification on page 3, paragraphs 0013 and 0014 regarding judging and adjusting means, respectively, the judging means states "software request change of processing capability to automatically convert binary information" while the adjusting means denotes as "to read selectively on of a first change parameter recorded in an internal recording medium". Both of the means for limitations are non-binding since these transitions are binary data movement inside a computer. Furthermore, although these events are active within real world environment,

the exchange of data in a non-rewriteable medium (e.g., CD-ROM) is well known and thus not credible.

***Section II: Response to Applicants' Arguments (Previous Office Action)***

***112 1<sup>st</sup>***

3. Applicants are thanked for addressing this issue. Rejection is withdrawn.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
